

SYMBOL ONE

The first symbol created has to with reality, they all have to do with reality but what one will see is that this symbol directly amplifies energy & matter. IT AMPLIFIES EVERYTHING. It is in perfect mastery of truth within itself, holding both aspects of Light & Dark in balance and harmony. This symbol is NEUTRAL, as are the rest. When wearing or holding one of these symbols, start to notice daily life, if you have more energy for the day, more positivity, more negativity or maybe your channeling/spiritual practices for your daily rituals are “enhanced.” Whether one is being creative or destructive in her/his own life, it can be used to amplify both properties. The positive end to the destructive amplified reality is one will be able to quickly see with clarity what needs to be addressed in their life. If an individual utilizing this symbol does not naturally do inner work at the CASUAL level, it can work against their interests by increasing the distortion already in their field and amplifying internal and external “un-serving forces.” This is due to the pure source expression of amplification in energy & matter of who they are in potential at the present moment and the amount of cleansing at ALL levels that individual still needs. Be aware of your daily routine especially if you don’t practice daily, the art of cleansing/clearing. The more one cleanses themselves of destructive forces (negative programming, beliefs, distortion, artificial light, extra souls, openings, unforgiveness, control, lack of surrender and whatever else there is) both internal and external, the higher the rate of light or Kryst can be held within the body. This symbol amplifies by connecting you with the I AM of your 4 bodies (mental, physical, emotional and spiritual) overall increasing the light within you by a lot with the beneficial effect of presenting in your field a higher light quotient. This symbol also works BEST while in practice of channeling, connecting with light, rendering a session, activations, etc..... It is a self-realizing symbol and doesn’t need to be activated itself. Its best suited for those who are in conscious practice of Physical Ascension, we say this due to the effects the amplification can have on the body & reality for those who are more “casual” with their spiritual practices. Not to say you can’t have it, just a reminder when using this symbol, wearing it, holding it, intentionally placing it in a car or home etc..... it is a cosmic symbol that its geometric coding dates back to the origins of amplification of reality with light and matter.
