

SYMBOL NINE

This symbol has to do with Mother/Father God's golden and white radiant codes along with black sun codes and rose flow codes. If you take pure source and look at the harmonics of its gold and white codes you get the outer shape (Half circles with spikes and the 8 inner triangles). When the rose flow codes was added, the middle appears and when black sun codes are added you get the squiggles in the gaps between the triangles when all these were added together they created this shape with the circle around the rose flow codes. They all flow together making a perfectly balanced Mother/Father Sun God symbol harmonically radiating Organic Gold Light/White Light/Black Light/Rose Light. It is what the Diamond Sun is in color, coding and architecture. When you hold or wear this symbol rest assured that you are in connection with these organic lights at the level of source. This one is different because this symbol connects into the physical realm, it's a direct transmitter from source to physical. Its expression can be noticed with enhancement of ones Feeling Body as it connects with the physical body. It also assists with abilities and anchoring them into body, new or awakened, if there are any already awakened abilities, since it enhances feeling it will strengthen ability. There are a lot of beings that are a part of these codes and that work with them. You might notice some beings popping in and out due to the purity of this symbol. Since these beings will be coming and going, their presence alone and unique signature themselves can assist with whatever is highest and best at the moment, ENJOY. LOVE LOVE LOVE.
